

**ORGANIC**

*Tasty, healthy and sustainable*

OUR  
COMMITMENT

ORGANIC

# *Taking care of what matters*

**At Borges we have been cultivating a healthier lifestyle  
through diet for more than 125 years.**

Right from the start, we have put your wellbeing and caring  
for the planet at the heart of everything we do.

And we will keep doing it in the future.

Because we need to take care of the really important things  
so we can continue to enjoy them.

## Healthy people

**Healthy products that improve your  
quality of life**, all packed with  
nutritional benefits from the  
best origins.

**Better ingredients, better flavor**, we  
only use high quality ingredients to  
obtain great tasting products.

**Quality, safety, and traceability from  
field to table**, driven by high quality  
standards.

**Committed to you beyond food**,  
encouraging a healthy lifestyle by  
supporting organizations that promote  
sport, health and culture

## Healthy planet

**Packaging designed to meet your needs,**  
those of products and the planet.

**Ready for the future with 100%  
renewable electrical energy** in our  
main production centers.

**Sustainability, at the heart of  
everything we do** by using sustainable  
practices in all stages of the production  
process.

**Making the circular economy a reality  
by reusing our resources**, as we reuse  
the waste from our products as biomass  
to improve soil quality

**Life in harmony with the planet** by  
devising plans to encourage and  
conserve biodiversity and semi-natural  
habitats on our farms.

## ABOUT US

**ORGANIC**

### About us

Our group is a leader in agricultural farm management, industrial processing, packaging and marketing of typical Mediterranean products such as olive and seed oils, nuts and vinegars.

The Borges Organic range is the natural evolution of our firm commitment to both the environment and our consumer's health. Our huge know-how of Mediterranean products for more than 125 years and our high level of sustainable practices, has allowed us to create an exclusive line of biological agricultural products that we expand every year.

Under the Borges Organic range, our customers and consumers will find only products which are typical of the Mediterranean diet, complying with the standards of the biological farming and produced and distributed in a sustainable way.

**Mediterranean  
Diet**

**Biological  
Agriculture**

**Sustainable  
Practices**

### Our Purpose

To promote the **biological Mediterranean diet** globally through our products, improving our consumer's health and minimizing our impact to the environment.

### Our Vision

To be a **world leading brand** in the marketing and sales of healthy, quality, sustainable and delicious biological products typical of the Mediterranean diet.

AGRICULTURE

ORGANIC

## Our Agriculture

Biological agriculture is a complete system of farm management and food production that combines the best environmental practices, a high level of biodiversity, the preservation of natural resources, the application of high animal welfare standards and a production method in line with the preference of many consumers for products produced using natural substances and processes.

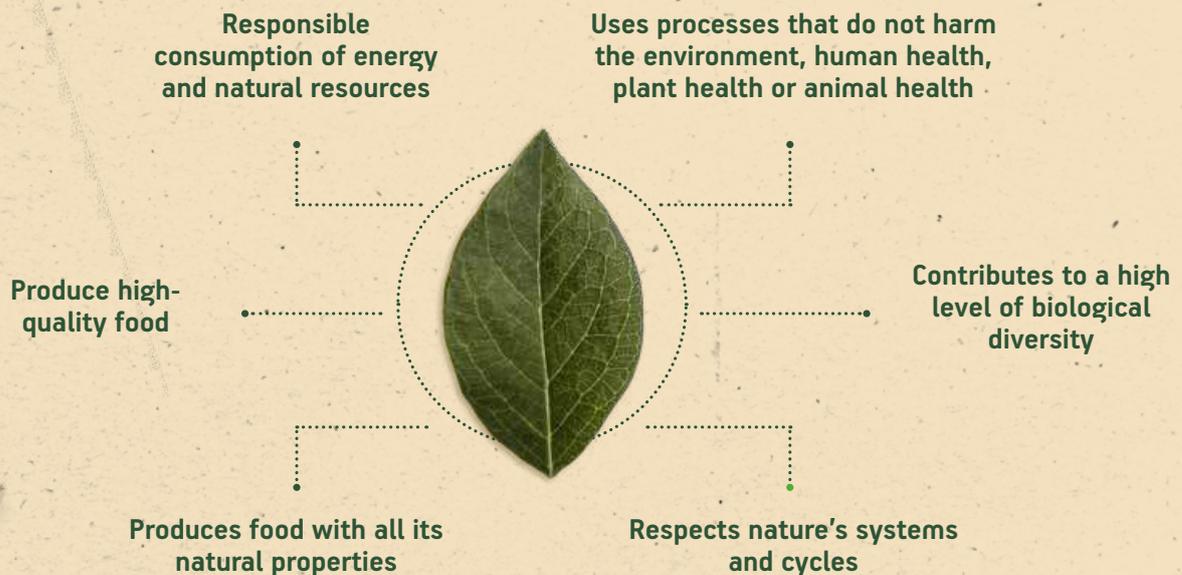

What characterises **BIOLOGICAL** agriculture?

The **absence of synthetic chemicals** and pesticides in crop management.

The **absence of genetically modified organisms (GMO)**.

The use of farming methods that comply with rigorous standards of **natural and renewable resource management**.

*Our agriculture pursues the following general objectives:*

OILS  
INNOVATION

**ORGANIC**

**RGLASS**

**RPET**

We avoid the extraction of raw materials from nature

Recycled glass

No odour or flavour transfer to the oil

100% Recyclable

Certified quality

Heat resistant

Lighter structural technology (only 40g)

Recycled plastic

Our green bottles with **80% recycled glass** are a clear representation of our **commitment** to innovation in all areas and our firm determination to safeguard the planet's future. Enjoy all our oils while contributing to eliminating single-use materials across the planet with our new recycling culture.

We are aware of the damage that single-use plastic bottles cause to the environment. For this reason, all our oils come in recyclable plastic or glass bottles. With Borges' new recycled plastic bottle, we will **reduce plastic emissions by 200 tonnes/year**.

OILS  
INNOVATION

ORGANIC

EXCLUSIVE CAP  
**DUO** PATENTED MODEL  
IDEAL FOR  
COOKING & DRESSING

## Borges creates the new **DUO**® CAP, the new way of serving olive oil

The new cap, which will make special oil dispensers a thing of the past, allows you to control the amount of oil you pour simply by turning the bottle: one way round, a fine flow of oil ideal for dressing salads and the like, and the other way round a larger flow for cooking.

Borges launches DUO®, a new cap with a double opening, perfect both for cooking and for serving olive oil at the table. Thanks to this design innovation, Borges has created a new cap with two different sized openings that allow you to control the flow of oil you want.

The smaller opening is ideal, for example, for dressing salads because it gives a fine, constant flow of oil. The larger opening, on the other hand, allows you to pour a larger amount of oil in less time, ideal for cooking. DUO® guarantees the right amount of oil and a better user experience, making it easier to use oil in different ways from a single container thanks to its double cap, making it convenient, practical and functional. This means you can use the oil both in the kitchen and at the table without using a special oil dispenser.

The new DUO® cap is 100% plastic and has no metal parts which could oxidise the oil and affect its quality. It also prevents splashes, stains, spills and wasted oil.

RDI, which we see as a way of anticipating and meeting consumer needs, is essential to Borges brand. DUO® adds value to the user experience to make people's everyday life easier.

Now, with the new DUO®, Borges makes it easier to use oil in different ways from a single bottle thanks to the convenient, practical and functional cap with two openings: the same bottle can be used both in the kitchen and at the table without having to use a special oil dispenser.

VINEGAR  
INNOVATION

ORGANIC

RGLASS

No odour or flavour  
transfer to the oil

We avoid the extraction  
of raw materials from  
nature

Certified quality

12%  
Recycled glass

Heat Resistance

100% Recyclable

Our transparent bottles with **12% recycled glass** are a **clear representation of our commitment** to innovation in all areas and our firm determination to safeguard the planet's future. Enjoy all our biological vinegars while contributing to eliminating single-use materials across the planet with our new recycling culture.

ORGANIC  
PRODUCTS

ORGANIC

## Our Products

We are experts in biological farm management, industrial processing, and the packaging and marketing of organic products typical of the Mediterranean diet.

**These are our organic products:**

**Extra Virgin Olive Oil**

**Vinegars**

OLIVE OIL

ORGANIC

# EXTRA VIRGIN OLIVE OIL

## FROM CERTIFIED ORGANIC OLIVES, ASSURED TRACEABILITY

A select blend made from certified organic olives, resulting in a mild flavour with a carefully balanced fruity, sharp and spicy flavour profile.

### COMPOSITION

Organic Extra Virgin Olive Oil.

### BEST USED FOR

Especially for dressing due to its intense taste of fresh oil. It also adds a fresh taste when used for cooking and drizzling.

### AVAILABLE FORMATS

VINEGAR

ORGANIC

# BALSAMIC VINEGAR OF MODENA P.G.I.

## THE TASTE OF MODENA TRADITION

From 100% organic farming. Our organic Balsamic Vinegar from Modena is made from a blend of only 2 ingredients: wine vinegar and grape must. No colourants (caramel), no sulphites added.

Its tangy sweet flavour will boost the flavour of your everyday dishes.

Produced in our cellar in Modena (Italy). The I.G.P. certification guarantees our traditional production process and our high quality standards.

### COMPOSITION

Aceto Balsamico di Modena P.G.I Bio.

### BEST USED FOR

Dressing and Marinate all your dishes.

### AVAILABLE FORMATS
